Continued Examination Under 37 CFR 1.114

A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on 06/08/2007 has been entered.

Allowable Subject Matter

Claims 1-15 and 22-26 are allowed.

The following is an examiner's statement of reasons for allowance:

Applicant's arguments, see Remarks section, pages 7 and 9, filed 06/08/2007, with respect to amended independent claims 1 and 7 have been fully considered and are persuasive. The rejection of claims 1 and 7 has been withdrawn.

Amended independent claims 1 and 7 now contain subject matter distinguishable over the prior art of record, i.e.:

Regarding claim 1, the prior art of record fails to disclose or suggest all the subject matter of claim 1, including "wherein the clock receiver generates an internal clock signal and the enabling circuit disables the clock receiver for a first time period after being triggered by a transition on the internal clock signal".

Regarding claim 7, the prior art of record fails to disclose or suggest all the subject matter of claim 7, including "the pulse generator generating a pulse signal for a first time period upon being triggered by a transition in the internal clock signal; and the

enabling circuit being electrically coupled to a clock filter enable signal and disabling the clock receiver for a duration of the first time period when the clock filter enable signal is enabled”.

Regarding claim 22, the prior art of record fails to disclose or suggest all the subject matter of claim 22, including “the pulse generator generating a second pulse signal for a second duration upon detecting a transition in the internal clock signal, the second duration being less than the first duration; and the enabling circuit disabling the clock receiver via the clock receiver enable signal during the second duration if the clock enable signal is enabled”.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled “Comments on Statement of Reasons for Allowance.”

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Stefan Stoyanov whose telephone number is (571) 272-4236. The examiner can normally be reached on 8:30AM-5:00PM.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Rehana Perveen can be reached on (571) 272-3676. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
